Mt Lawley Revision Program

This course will deliver a comprehensive exam preparation program aimed at preparing year 12 students for their ATAR exams.

Specifically, the classes will focus on subject related exam techniques and the modelling of exam style questions to prepare students for their final assessments. Teachers will also explain how the syllabus content can be employed to construct successful examination responses.

There is sufficient time within the program for teachers to model how to answer exam questions successfully as well as time for students to independently practice constructing their own answers.

A Successful Program

Students attending exam preparation programs report that they feel more empowered and confident in tackling the examinations.

F.A.Q.

How can students be assured that what they have learnt in semester one will be addressed in this program. The answer to this important question is really quite simple.

- ✓ The foundation of our tutorials is the Western Australian curriculum which is the same syllabus guidelines used by the school.
- ✓ We also send out a questionnaire to all families participating in the program before the classes begin, to find out exactly what topics and texts students have been studying, and this information is forwarded to teachers for inclusion in their programs.
- ✓ This questionnaire also asks families to alert us of any specific weaknesses in the student's knowledge that may have been identified by the school or the student so that specific area can be re-taught by the teacher.
