ATAR EXAM PREPARATION

MMA's Master Classes will deliver a comprehensive exam preparation program that will assist year 11 and 12 students in preparing for their final exams. This program will focus on specific exam questions and explain in detail how the syllabus content can be employed to construct successful examination responses. These classes offer students a structured exam preparation program that will add value to the independent study they are doing at home.

A SUCCESSFUL PROGRAM

All students attending our Exam Preparation Programs report that they feel more confident in tackling the demanding schedule of the examination period.

Some students find it very difficult to sustain an independent study program. Exam Focus offers them a structured way to comprehensively prepare for their exams.
