

October 2026 Mount Lawley Revision Program

Overview

These classes consist of six hours of teaching broken up into two hours a day for the three days. The program consists of re-teaching and revision, and is designed to reveal to students how the work they have learnt will be assessed in their exams.

Exam Preparation

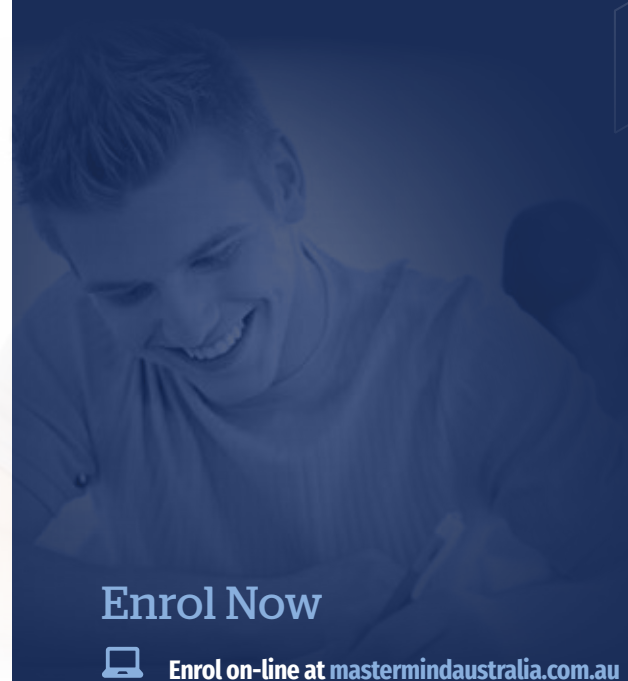

The tutorials commence with a focus on specific topic revision followed by a discussion on how this material is assessed in ATAR-style exam questions. There is sufficient time within the six hours for teachers to model how to answer exam questions successfully as well as time for students to independently practice constructing their own responses. All our ATAR teachers know what needs to be addressed to ensure students achieve success in their final examinations.

Individualised Support

MMA works to tailor the program to cater to the specific needs of students. Each student enrolled is sent a questionnaire before classes begin to find out exactly what topics and texts students have studied, and this information is forwarded to teachers for inclusion in their programs.

This questionnaire also asks families to alert us of any specific weaknesses in the student's knowledge that may have been identified by the school or the student so that specific area can be re-taught by the teacher.
